

# DT at Hackwood Primary Academy

## Intent

Through our DT curriculum at Hackwood, we aim to be inspired by engineers, designers, chefs and architects throughout our school journey. We will create a range of structures, mechanisms, textiles, electrical systems and food products. Across each year, pupils will gain valuable **practical** and life **skills**. Children have opportunities to create a variety of products using their **imagination** and creativity. They will then **reflect** upon and evaluate created products. Experienced staff will encourage all pupils to persevere through difficulties that occur during the creation process. Pupils will be **nurtured** to become innovators and risk takers.
