

Geography at Hackwood Primary Academy

Intent

Through our geography curriculum at Hackwood, we aim to **investigate** and understand our local area; nurturing a sense of pride and belonging and developing respect and understanding of the world, diverse places and people. Our ambition is to instil pupils with a keen interest for exploring and **enjoyment** of travel. We aim to equip pupils with the **skills** to navigate and understand the world around them.

We provide children with opportunities to **reflect** on, and understand, the geographical changes in our world and opportunities to experience **practical** geography through fieldwork in the local area.
