

# Music at Hackwood Primary Academy

## Intent

Through our music curriculum at Hackwood, we aim to develop an appreciation for music of a variety of cultures and for our pupils to **enjoy** exploring these. Across each year group, pupils will gain an understanding of music through the experience of live performance. We will build pupils' **skills** and knowledge through **practical** teaching of musical instruments. Our vision is for all pupils to gain confidence through opportunities to perform for an audience and **reflect** upon these. Through teaching of music lessons, pupils will build a bank of musical vocabulary and phrases through guided investigations.
