

Spanish at Hackwood Primary Academy

Intent

Through our Spanish curriculum at Hackwood, we aim to provide pupils with the opportunity to **investigate** Spanish speaking countries and culture. Within our Spanish curriculum, we will **nurture** and develop pupils' wider cultural understanding. We intend to develop pupils' speaking, listening and communication skills through **imaginative** role play. We will equip pupils with the **practical skills** to have a conversation in Spanish. Through our Spanish curriculum, we will provide children with opportunities to **reflect** on their learning and progress within Spanish. We aim to inspire an interest and **enjoyment** in other communities and cultures.
